

UNDERGROUND FEMALE SANITATION

KOPANANG MINE

INTRODUCTION

- We provide underground multi gender ablution facilities at Kopanang mine adequately in numbers and positioned within reasonable travelling distances from working places, which is constructed and maintained in such a way to ensure availability and preventing employees from exposure to unhygienic conditions
- At Kopanang Mine we currently have 43 toilets allocated to our female workers
- All these toilets are lockable
- The toilets are clearly marked “Male / Female”
- All 43 toilets are equipped with SHE Bins , which are on a maintenance contract
